Fall 2011

President's Message

This has been a wonderful summer at the Lake. As always, the warm months seem to pass too quickly and I hope all of you had a chance to enjoy the beautiful weather and take part in some of the many spectacular events offered in and around the north shore.

With the onset of autumn, the changing pattern of the sun seems to add a particular beauty to the Lake. Although the water is still a bit cold this time of the year, watching the sunsets from the shore is truly a magnificent experience. This is a good time to reaffirm how fortunate we all are to be connected to this unique and special place.

It's also a good time to get you all caught up on a subject I know is foremost on your minds, the progress of our remodeling project at Tahoe Chaparral. We have now completed the first phase of our remodeling which included the kitchens, decks and patio doors for units except for the decks and patios on Units 41 through 43 which are scheduled to be completed in late spring of 2012.

The next phase, which includes bedrooms, baths, living rooms and dining rooms, is already underway for Units 44 through 47. The management company has made the necessary arrangements to accommodate everyone affected by the downtime on those units and it is hoped that no one was inconvenienced.

It is with great sadness that I inform you all of the passing of our good friend and dedicated treasurer, Edward Scott. Ed served the Chaparral family for many, many years as our treasurer and a member of the Board. I know he will be missed by all.

There is still much work before us and your participation as a Board Member can help us ensure success. I strongly encourage anyone who is interested in serving on the Tahoe Chaparral Board of Directors to join us. Please send your information, including a description of what you can bring to our Board of Directors, to: Interval Management, C/O Sara Asuncion, 515 Nichols Blvd, Sparks, NV 89431 or by E-Mail to sara@qmc Corp.com.

Finally, I want to take this opportunity to remind everyone of our Annual Owners Meeting on Saturday, October 15, 2011. This is an important opportunity for members to find out the latest information on important developments and ask questions of the Board and Management. The meeting begins at 11 a.m. at the Thunderbird Resort Club, 200 Nichols Boulevard, Sparks, Nevada.

I hope you all enjoy the rest of your summer and look forward to seeing you all again at our Annual Meeting in October.

Pat (Patti) G. Nystedt
President, TCROA

"With the onset of autumn, the changing pattern of the sun seems to add a particular beauty to the Lake."

LAKE TAHOE LIFE

A renaissance is underway at Squaw Valley USA

Photo courtesy Squaw Valley USA.

With \$50 million in improvements just over the horizon, you might want to consider taking a drive over to Squaw Valley during your next stay at the Chaparral to see how their “renaissance” is coming along.

Plans call for upgrades to just about everything Squaw Valley currently has to offer its visitors, from the slopes to the shops. There’ll be more for kids to do, improved ticketing services, renovated facilities, more food and beverage options, and advanced user communication methods, including an App to get updated information about conditions and activities.

"Squaw Valley is an incredible and diverse mountain, and we are committed to honoring every aspect of the mountain's history, legacy and legend," said Andy Wirth, Squaw Valley's president and chief executive officer. "We've talked to guests, skiers and riders regionally and around the country and learned that the very caliber of this mountain may have kept some visitors away, and we are dedicated to creating an approachable and friendly experience for our guests of every ability level. This philosophy is present in every aspect of our mountain and base area improvement plans -- and will remain a theme as we continue to change."

The first phase of renovations begins ahead of the 2011-12 season. For this phase, the resort, and new owners KSL Capital Partners, will invest about \$15 million in the base area and on the mountain. For detailed information and updates about Squaw Valley USA's “renaissance,” visit: www.squaw.com/squaws_renaissance

Lake lovers prefer paddle power

The Tahoe Daily Tribune ran an interesting news article in August about decreasing use of motorboats at Lake Tahoe and an increase in the popularity of paddle sports.

“The reasons for the increase in paddling popularity vary,” Sue Rae Irelan, who studies non-motorized watercraft use for the Tahoe Resource Conservation District told the Tribune. “Possible reasons range from the economy, the ease of use, the improving technology, the lowering price of paddle sports as well as an increased interest nationally in the outdoors and health. And for Tahoe, the sport just fits in well up here.”

“I think the total number of people paddling on the lake has definitely increased,” Andrew Laughlin, owner of Tahoe City Kayak and Sand Harbor Rentals told the paper. "With the economic crisis, people are selling off high-priced toys like jet skis.”

But for Lake Tahoe visitor Maureen Whittaker, the decision to rent a kayak this year was not solely based on the economy. “We rented kayaks, rather than a motor boat, because they just offer a more peaceful experience,” she said.

Pioneer Center for the Performing Arts, downtown Reno

The smash hit musical "lovingly ripped" from the popular film, Monty Python and the Holy Grail, is coming to Reno this fall. From killer rabbits to flatulent Frenchmen, it's a madcap, zany, and highly recommended adventure from curtain to curtain.
